1. The Additional Services Package fee will be charged in advance and will appear on your statement with your other fees.

2. All new residents are charged the Additional Services Package fee of \$20 per day, which is a condition of entry. Fully supported residents who may have financial difficulties paying this fee may be eligible for partial or full payment assistance. This applies to residents who are assessed as not being subject to paying a RAD/DAP or a RAC/DAC.

3. The package includes access to all the services listed in the package.

4. The package is not offered as individual services.

5. Residents are periodically assessed to determine their ability to access and benefit from the services.

6. We are open to substituting different services of similar value into the package list, depending on residents' changing desires and care needs, as well as the availability of new technologies.
