Depending on your assets and income, some permanent residents may be required to pay an additional contribution towards the cost of their care. This amount is calculated by the Department of Human Services or the Department of Veteran Affairs and is derived from the data you provide on the Department of Human Services Income and Assets Assessment form. The rate is revised by the Government every quarter. There are annual and lifetime cap limits applied to this care fee. Once the limits are reached, you are not required to pay any more means-tested fee.
